

Hi Sir/Ma'am this is Bruce from

Tizy trucking LLC how are you doing today? We are a freight Management Company and we are looking for a carrier to work with us for the long term. Are you interested to working with us?

Alright, where your truck is at the moment?

What do you prefer a long haul or a short haul?

Okay, can you please confirm where you want to go from there?

Actually, we have direct brokers and shippers on board with us and we have to send them your preference and they will share us option for you. Once you come on board with us, the only concern you are going to have is just focus on the road and we take care of everything. We will be working as your back office extension providing 24/7 customer support. We will manage everything from finding loads, Freight rate negotiation; follow up with the broker, dealing with all kind of paperwork including carrier packet, invoicing, billing, detention and layover. We can provide you load on the daily basis as per your preferences.

The best thing is we will not book anything without your consent. So we get a load we will call you share the load details with you and if you say yes go ahead only then we will book it. If you say no we will leave it and move on to another best option.

The best thing is we will be working under your MC (Motor Carrier Authority) as your employees. The load we will book for you will be on your company name and the invoices that we send to the broker will also be on your company name. So that you directly get paid from the

broker and for our services we will send you the invoice every week Friday.

For all these services we only charge 7%.

If you are using Factoring Company then we will send the BOL and Rate con. to the factoring so that you get paid instantly.

If no,

Alright, so are taking dispatch services from anyone?

How much they charge?

If you don't mind me asking, how much you make in a month?

So the thing is we can make you more money than this at a lower percentage. You know very well that it takes 2-3 hours daily for a dispatch for one truck, so once you come on board with us all you have to do is just drive for 8 hours and spend a good time with your family and we take care of everything.

So, I'm just sending you an email now i believe your email is admin@tizeytruckingllc.com or tizeytruckingllc@GMAIL.COM ? Right so just fill out the documents and send it back to me and we will start booking loads for you.

If you have any question or queries you can call me on the same number 929-333-3662

Thank you has a nice day.
